Directions:

Step 1: Melt 1/3 pound Natures Garden Natural Lip Balm Base in a microwave; 30 second intervals at a time until it is completely liquid.

Step 2: Add 1 packet of powdered stevia to melted lip balm. Stir. Stevia will help provide sweetness to your lip balm. It will suspend itself in the lip balm, but will not dissolve.

Step 3: Add 1 Tablespoon Monkey Farts Flavoring Oil. Stir.

Step 4: Add ¼ tsp. of mica pigment, and stir.

Step 5: Quickly fill your containers using a transfer pipette.

Step 6: Allow lip balms to set up at room temperature.
