Other Ingredients & Equipment You'll Need:

Scale

Water

Mixing Bowls

Mixing Spoons

Stick Blender

Here's How It's Done : Directions

Total Recipe Weights:

108 grams of water
40 grams of lye
20 grams of Apricot Kernel Oil
11 grams of Castor Oil
85 grams of Coconut Oil 76
40 grams of Mango Butter
43 grams of Palm Oil
37 grams of Shea Butter
48 grams of Sunflower Oil
17 grams of Sodium Lactate
18 grams of Vanilla White Color Stabilizer
18 grams of Peace Fragrance Oil
2 grams of FUN Soap Colorant Neon Red
2 grams of FUN Soap Colorant Neon Yellow
2 grams of FUN Soap Colorant Neon Orange
2 grams of FUN Soap Colorant Neon Blue
4 grams of FUN Soap Colorant Ultramarine Violet

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, a face mask, safety glasses, and a hair net while preparing this recipe. [Click Here For Basic CP Soap Making Class](#). Also, before attempting to make any cold process soap, please become familiar with [Soap Making Safety Class](#).

Please Note: The sodium lactate is added to the cooled lye water prior to mixing of the oils and butters. Carefully stir to incorporate.

After adding the Peace fragrance oil to the soap batter, weigh out and add the vanilla white color stabilizer. Stick blend to incorporate. Next, get out 5 mixing bowls. To the first bowl, add the neon red. To the second, neon yellow. To the third bowl, neon orange. To the fourth bowl, neon blue. To the final bowl, ultramarine violet. Now, separate out 90 grams of the soap batter into each bowl. Stir each bowl individually with a spoon to incorporate. Then, pour each bowl into its own section of the main batter bowl. This will look very similar to a painters color palette.

Next, get your spatula, and swirl directly in the bowl. Finally, pour the soap into each of the peace molds and insulate.

After 24 hours, remove the soaps from the mold. Allow them to further cure before using.
