

Bacon Slime Recipe

Recipe makes approximately 2- 8 oz. jars of slime.

Here's What You Need:
Ingredients

[Borax](#)
[8 oz Bullet Bottle](#)
[24/410 White Smooth Disc Lids](#)
[8 oz Clear PET Jars](#)
[White Smooth Lids 70/400](#)
[Disposable Pipettes](#)
[Bacon Fragrance Oil](#)
[Red Oxide FUN Soap Colorant](#)
[Brown Oxide FUN Soap Colorant](#)
[Tomato Red FUN Soap Colorant](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowls
Stainless Steel Spoon
Measuring Cups
Measuring Spoons
White Elmer's Glue
Shaving Cream

Here's How It's Done : Directions

Step 1: Prepare your borax solution. In your 8 oz bottle, add ½ teaspoon of Natures Garden's borax. To this bottle, add 8 ounces of warm water. Place a white lid on the bottle. Make sure the lid is in the closed position. Shake the bottle to mix the two ingredients together. You will need this solution in a later step.

Step 2: Next, in a deep mixing bowl, add 1 cup of the white glue. Then, add about two cups of shaving cream. Also, use a disposable pipette to add 4ml of the Bacon Fragrance Oil. Mix everything together completely.

Step 3: For this step, you will need the borax solution you prepared. Add a small amount of the borax solution and mix. Then, add more of the solution and mix again. Repeat this process until you have a slime consistency. **Note:** If you do not add enough borax solution, your slime will be too sticky. If you add too much of the borax solution, your slime will be too stiff and not as stretchy. So, make sure you add only small amounts of the solution at a time.

Step 4: Now, separate the slime. You will need to divide the slime evenly into three bowls. To the first bowl, add some red oxide FUN Soap Colorant and a few drops of brown oxide and mix to incorporate the colorant. To the second bowl, add a tiny bit of red oxide FUN Soap Colorant and a few drops of the tomato red FUN Soap Colorant. Once again, mix to incorporate the colorant. Leave the third bowl uncolored.

Step 5: Start with the darkest color. Stretch it out in front of you. Then, stretch the light color slime out and lay it directly on top of the darker colored slime. Finally, stretch out the uncolored slime and place it on top of the other two. Twist it together.

Step 6: Finally, place the slime in your jar and put a lid on top.

We hope that you enjoy your bacon scented slime!
