

Banana Pudding Soap

*This is a Spotlight Project—imagined, created, and shared by Afshan
Recipe makes approximately 4 banana pudding soap cups.*

Here's What You Need: Ingredients

[YOGURT Melt and Pour Soap](#)
[FUN Soap Colorant- Yellow Oxide 1 oz.](#)
[FUN Soap Colorant- Orange Oxide 1 oz.](#)
[FUN Soap Colorant- Brown Oxide 1 oz.](#)
[Da BOMB Soap Dye- YELLOW 1oz.](#)
[Old Fashion Banana Pudding Fragrance Oil](#)
[VEGETABLE GLYCERIN](#)
[*Imagine Base - 1 gallon](#)
[Poppy Seed Whole](#)
[8 oz. Clear PET Bullet Bottles](#)
[Black Fine Mist Sprayers 24/410](#)

Other Ingredients & Equipment You'll Need:

Cutting Board
Scale
Microwave safe glass container
Large Knife
Mixing Spoon (wood or stainless steel)
Spoon
Spatula
Toothpick
Mixer
Microwave
(4) 9oz. Clear Solo Cups
Banana Slices Mold (flexiblemolds.com)
Vanilla Wafers Mold (flexiblemolds.com)
Rubbing alcohol in a spray bottle

Here's How It's Done : Directions

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Step 1: Prepare Banana Slices: In your microwave safe glass container, weigh out and melt 285 grams of Yogurt Melt and Pour Soap Base in the microwave 30 seconds at a time. Stir gently. Keep melting until all soap is in a liquid state.

Step 2: Add 5 drops Da Bomb Soap Colorant Yellow to melted soap. Mix well. Add 14 grams Old Fashion Banana Pudding Fragrance Oil; stir well. Once incorporated, fill your Banana Slices mold. Spritz the banana slices with alcohol. Allow to fully set up, then remove them from the mold. Please Note: You will have to fill the banana slices mold a total of 5 times in order to get a total number of 20 banana slices for this project.

Step 3: Once your banana slices are completely set up, using a toothpick poke 3 small holes towards the center of the banana slices. Then, still using the toothpick gently glide 1-2 individual poppy seeds into each hole. These will represent the banana seeds. Set aside when complete.

Step 4: Prepare the Vanilla Wafers: In your microwave safe glass container, weigh out and melt 300 grams of Yogurt Melt and Pour Soap Base in the microwave 30 seconds at a time. Stir gently. Keep melting until all soap is in a liquid state.

Step 5: Add 6 drops FUN Orange Oxide, 4 drops FUN Brown Oxide, and 4 drops FUN Yellow Oxide soap colorant to melted soap. Mix well. Add 15 grams of Old Fashion Banana Pudding fragrance oil; stir well. Once incorporated, fill your Vanilla Wafers mold. Spritz the wafers with alcohol. Allow this to fully set up, then remove them from the mold. Please Note: You will have to fill the vanilla wafers mold a total of 2 times in order to get a total number of 24 vanilla wafers for this project.

Step 6: Prepare the Pudding: In your microwave safe glass container, weigh out and melt 1160 grams of Yogurt Melt and Pour Soap Base in the microwave 30 seconds at a time. Stir gently. Keep melting until all soap is in a liquid state.

Step 7: Add 60 drops Da Bomb yellow soap colorant to melted soap. Mix well. Add 58 grams of Old Fashion Banana Pudding fragrance oil; stir well. Once incorporated, gently pour the soap into your (4) 9oz clear solo cups. You will want to fill the cups 3/4 of the way full. Set any left over soap aside for now. Once all cups have been filled, allow them to set up at room temperature. **Note: Be careful not to pour your soap too hot or you will melt your solo cups.**

Here's How It's Done : Directions

Step 8: Using your alcohol in a spray bottle, generously spritz the pudding portion with alcohol. This will allow the layers to adhere.

Step 9: Embedding the Wafers: In your microwave safe glass container remelt your remaining pudding soap in 30 second increments. Stir gently. Keep melting until all soap is in a liquid state.

Step 10: While you are remelting your soap, gently place 5 vanilla wafers along the sides of your cups. Once all 4 cups have wafers, gently pour some melted soap pudding in the middle of the cups to secure the wafers in place. Allow this to set up, and spritz with alcohol once again.

Step 11: Prepare the Whipped Topping: In your microwave safe glass container, weigh out and melt 108 grams of Yogurt Melt and Pour Soap Base in the microwave 30 seconds at a time. Stir gently. Keep melting until all soap is in a liquid state. Once melted, add 56 grams Vegetable Glycerin and 30 grams Imagine Base. Stir. Next, add 10 grams Old Fashion Banana Pudding fragrance oil and stir again.

Step 12: Be READY to MOVE: Quickly, using your mixer, mix until your mixture looks like very thick, airy frosting.

Step 13: Scoop in the Whipped Topping: Using your spoon, quickly scoop the whipped topping in the center of the cups. Keep spooning this in to your liking. Please Note: You will need to work relatively fast because melt and pour whipped topping sets up very quickly.

Step 14: Decorating: Next, quickly take 1 vanilla wafer and stick it in the center of the whipped topping. Repeat with remaining 3 cups.

Step 15: Finally, take 5 banana slices and place them around the center vanilla wafer. Repeat with remaining 3 cups.

Please Note: Old Fashion Banana Pudding Fragrance Oil does have a vanillin content of 4%. Fragrance oils that contain vanillin will discolor over time. If you prefer not to add fragrance oil to the whipped topping portion of your pie, you do have the option of leaving it unscented. Also, if you think that the banana slices are too thick, you may also cut them in half before placing them in your banana pudding soap cups.

Your Old Fashion Banana Pudding Soap Cup is now ready to use. Enjoy!
