

Christmas Kaleidosoap Recipe

Recipe makes approximately 2.5 pounds of soap

Here's What You Need:
Ingredients

Lye

[Jingle Bells Fragrance Oil](#)

[Jojoba Oil](#)

[Avocado Oil](#)

[Sunflower Oil](#)

[Mango Butter](#)

[Apricot Kernel Oil](#)

[Shea Butter](#)

[Coconut Oil 76](#)

[Glistening Garnet Mica](#)

[Onyx Sparkle Mica](#)

[Margarita Green Mica](#)

[Titanium Dioxide](#)

[Safety Glasses](#)

[Safety Gloves](#)

[Natures Garden Apron](#)

[Thermometer](#)

[Mitre Box](#)

[Mitre Box Cutter](#)

Other Ingredients & Equipment You'll Need:

Distilled Water

Mixing Bowls with a Funnel Spout (3)

Mixing Spoons

Rubber Spatulas

Scale

Stick Blender

Vinegar

Kaleidoscope Mold and Tool

Safety Mask

Measuring Spoons

Here's How It's Done : Directions

Total Recipe Weights:

266 grams Distilled Water
95 grams Sodium Hydroxide

70 grams Apricot Oil
70 grams Avocado Oil
140 grams Sunflower Oil
105 grams Mango Butter
105 grams Shea Butter
175 grams Coconut Oil 76
35 grams Jojoba Oil
53 grams Jingle Bells Fragrance Oil

Colorants for Red Soap Batter:

1 tsp Glistening Garnet Mica
 $\frac{1}{8}$ tsp Onyx Sparkle Mica
(mixed with a small amount of soaping oils)

Colorants for Green Soap Batter:

1 tsp Margarita Green Mica
(mixed with a small amount of soaping oils)

Colorants for White Soap Batter:

$\frac{1}{2}$ tsp Titanium Dioxide
(mixed with a small amount of soaping oils)

Clean and sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, a face mask, safety glasses, and a hair net while preparing this recipe.

Step 1: Prepare your lye solution. Allow the lye solution to cool to room temperature.

Step 2: While you are waiting for your lye solution to cool, prepare your soaping oils. Once your oils are melted, allow them to cool to room temperature.

Step 3: While you are waiting for your oils and lye solution to cool, prepare the colorants listed above. Once you have measured each colorant in a small mixing bowl, add a small amount of your soaping oils to each bowl. Stir.

Step 4: When both the soaping oils and the lye solution are at room temperature, combine them. Next, stick blend the soap batter to emulsify the ingredients. Then, add the Jingle Bells Fragrance Oil. Once again, stick blend your soap batter to incorporate the ingredients.

Step 5: Separate the soap batter into three equal portions. Add one of the colorants to each bowl. Blend the contents of each bowl.

Here's How It's Done : Directions

Step 6: Pour the soap batter into the mold. Begin with the red soap batter. Pour about 1 ounce of the soap batter directly into the center of the mold. Then, pour the green in the same manner. Repeat this process with the white batter. Repeat this process, alternating colors in this order until you have used all of the soap batter and filled the mold.

Step 7: Pull the tool out of the soap slowly. You want to pull it straight up. Move the tool slowly, it should take about 10 seconds to pull the tool all the way out. We found that we liked the details in the soap when we pulled at this speed. Gently tap the mold on your countertop to release any air bubbles in the mold.

Step 8: Allow the soap to set up before removing it from the mold. Cut the soap after about 48 hours using the mitre box and cutter. Allow it to cure.

We hope that you enjoy this kaleidoscope cold process soap recipe!
