Here's How It's Done : Directions

Step 1: First, you will need two bowls. To each bowl add 15 ounces of the Soya Milk Melt and Pour soap. Using the microwave, melt the soap in 30-second intervals. Melt both bowls of soap until they are in a liquid state.

Step 2: In a small mixing bowl, mix 7 grams of kaolin clay and 15 grams of vegetable glycerin. Stir until it is clump free. Add this mixture, along with 0.75 ounces of the Christmas Wreath Fragrance Oil, to one of the bowls of melted soap. Stir to combine the ingredients.

Step 3: To the second bowl, add 40 drops of the Tomato Red FUN Soap Colorant and 0.75 ounces of the Christmas Wreath Fragrance Oil. Stir to blend the ingredients.

Step 4: Now, you will pour the soap into the mold. So, you will need one bowl in your right hand and the other in the left. Pour the melted soap into three cavities of the bundt cake mold. You will need to pour the red and white soap at the same time in order to create a swirl effect.

Step 5: Once you have poured the soap into the mold, spray each one with rubbing alcohol in order to release any air bubbles. Allow the soap to setup.

Step 6: Once your soap has setup, remove them from the mold. Place them on the flexible mat. If you do not have a flexible mat, you can use wax paper or parchment paper.

Step 7: In a mixing bowl, weigh out and melt 2 ounces of the soya milk melt and pour soap from Natures Garden.

Step 8: Once soap is melted, add 0.1 ounces of the Christmas Wreath Fragrance Oil and 30 drops of the Neon Green FUN Soap Colorant. Stir to blend everything together.

Step 9: Spray each bundt cake with rubbing alcohol. Then, drizzle the melted soap over each of the bundt cakes. Finally, quickly sprinkle the drizzle with the decorating sprinkles.
