Witch Hazel in a spray bottle

This recipe is best prepared in non-humid climates. Prior to making this recipe, pour some of your witch hazel into your spray bottle in order to have this ready.

Step 1: Place your 4 bowls in your work area. One bowl will be for your dry ingredients, one bowl for your wet ingredients, and two bowls for the colorant.

Step 2: The Dry Ingredients: In your dry mixing bowl weigh out and add the citric acid, cornstarch, baking soda, and bentonite clay. If you notice any clumps, break them up in your hands now. Mix well.

Step 3: The Wet Ingredients: In your wet mixing bowl weigh out and add the castor oil, sweet almond oil, and cotton candy fragrance oil. Stir to incorporate.

Step 4: Next, grab your two empty bowls. To each bowl add 150 grams of the dry ingredient mixture. To the first bowl add the neon blue colorant, to the second bowl add the neon pink. Using your hands, incorporate the individual color throughout each bowl.

Step 5: Now, in a drizzling manner add the wet ingredients bowl to the remaining white dry ingredients. Using your hands, mix the ingredients together until they are completely incorporated.

Step 6: Lightly spritz the mixture with witch hazel. Mix the mixture. Continue spritzing with witch hazel until the mixture feels like crumbly dough in your hands. Do not overspray.

Here's How It's Done : Directions

Step 7: Next, add some of the of the pink and blue dry ingredients to the mixture. Rotate some of the white over the colors then add the remaining pink and blue to the white. Do not mix, you want to leave it looking sporadic in color dispersal.

Step 8: Press the mixture into both halves of your fillable ornament and press down firmly.

Step 9: Now, spritz both halves of the ornaments with witch hazel. Then, attach the ornament halves together.

Step 10: Allow the bath bombs to set. Then, release them slowly from the mold.

Your Cotton Candy Bath Bombs are now ready for use. Enjoy!
