

Curl Pop Hair Gel

Recipe makes approximately 1- 8 oz. bottles.

Here's What You Need:
Ingredients

[Flax Seed Whole](#)
[NG Biolage Matrix Type Fragrance Oil](#)
[Epsom Salt](#)
[OPTIPHEN - Preservative](#)
[8 oz. PURPLE PET Bullet Bottles](#)
[Black Lotion Pumps 24/410](#)
[THERMOMETER](#)

Other Ingredients & Equipment You'll Need:
Scale
Distilled Water
Glass Bowl
Mixing Spoon
Pot
Knee High Pantyhose (brand new)
Spatula
Funnel
Whisk

Here's How It's Done : Directions

Total Recipe Weights:

440 grams of Distilled Water

43 grams of Flax Seed Whole

3 grams of Epsom Salt

13 grams of NG Biolage Matrix Type Fragrance Oil

3 grams of Optiphen

Step 1: Using your scale, weigh out the distilled water and flax seed. Place both of these ingredients into a glass bowl. Then, using your mixing spoon, stir. Finally, cover the bowl and place it in the refrigerator overnight.

Step 2: The next day, use a spatula to scrap all of the water and flax seed into a pot. To this add 3 grams of Epsom Salt. Then, place the pot on the stove top and set the heat setting to high. Stir the mixture generously as it heats.

Step 3: When the mixture reaches a consistent boil, reduce the heat setting to medium. Keep stirring.

Step 4: Allow the mixture to cook for 5 minutes. When you notice the flax seed stays suspended in the gel, remove the pot from the heat source. Turn off your stove.

Step 5: Next, place your pantyhose over the container opening. Carefully pour the mixture into the hosiery. Once the mixture is all there, rinse the pot out.

Step 6: Caution the mixture is hot! Now, apply pressure to the pantyhose to strain out as much gel as possible. When finished, remove the pantyhose containing the flax seeds.

Step 7: Monitor the temperature of the gel with your thermometer. Once the temperature of the gel reaches 120 degrees Fahrenheit, add 3 grams of Optiphen and 13 grams of NG Biolage Matrix Type Fragrance Oil. Slowly and carefully, use your whisk to incorporate the fragrance oil and Optiphen into the gel.

Step 8: When the gel has cooled, place your funnel into your bottle, and fill. Then, apply the pump.

Your Curl Pop hair gel is now ready to use. Enjoy!
