Here's How It's Done : Directions

Total Recipe Weights:

- 264 grams Citric Acid
- 528 grams Baking Soda
- 10 grams Bentonite Clay
- 36 grams Avocado Oil
- 20 grams Fun Soap Colorant- Neon Blue
- 16 grams Mermaid Kisses Fragrance Oil

This recipe is best prepared in non-humid climates. Prior to making this recipe, pour some of your witch hazel into your spray bottle in order to have this ready.

Step 1: First, weigh out and mix 528 grams of baking soda, 264 grams of citric acid, and 10 grams of bentonite clay. If there are any clumps, break them up with your hands.

Step 2: Then, in a separate bowl, add 36 grams of avocado oil, 20 grams of Neon Blue Fun Soap Colorant, and 16 grams of Mermaid Kisses fragrance oil. Use a spoon to mix these ingredients together. It will have a paste like consistency.

Step 3: Use a spoon to add the wet ingredients bowl to the dry ingredients bowl. Using your hands, incorporate well. You want to make sure everything is thoroughly mixed.

Step 4: Sprinkle some fish shaped candy sprinkles in the bottom of the molds. Set aside.

Step 5: Next, spray the mixture lightly with witch hazel and press the mixture into both halves of the mold, press down firmly. Leave room inside the mold to place the plastic fish toy. Do not put the toy too close to the seem of the mold, or your bath bomb will crack in the middle. Now, spritz both halves of the ornaments with witch hazel. Finally, attach the ornament halves together. Allow to set up.

Step 6: Once they have hardened, gently remove the bath bombs from the mold.

Your Fish Toy Bath Bombs are now ready for use. Enjoy!
