[Alien Type Fragrance Oil](#)
[Fun Soap Colorant- Black Oxide](#)
[Cupcakes Mold Market Mold](#)
[8 oz. Clear Bullet Bottle](#)
[24/410 Black Fine Mist Sprayer](#)

Other Ingredients & Equipment You'll Need:
Scale
Hand Mixer
Deep Mixing Bowl
Mixing Spoon
Rubbing Alcohol
Wax Paper

Here's How It's Done : Directions

Total Recipe Weights:

200 grams Diamond Clear
1 grams Fun Soap Colorant Black Oxide
77 grams Whipped Soap Base
77 grams Soya Milk Melt and Pour
9 grams Vegetable Glycerin
17 grams Alien Type Fragrance Oil

Before beginning, prepare your work area by cleaning it and sanitizing it.

Step 1: First, in a small bowl melt 200 grams of Diamond Clear Melt and Pour Soap.

Step 2: Once melted, add 1 gram of Fun Soap Colorant Black Oxide and 10 grams Alien Type Fragrance Oil and stir. Pour the melted soap base into the base portion of the Cupcakes Mold. Spritz the base lightly with rubbing alcohol to remove any air bubbles. Allow to setup.

Step 3: Now, you will have a small amount of the melted soap base left. You will need this to make eyes and mouths for your ghosts. On a piece of wax paper, using a disposable pipette or a spoon and the leftover melted black soap, place 4 smaller drops for eyes and 2 larger drops for mouths.

Step 4: Then, prepare your frosting. In a deep mixing, weigh out 77 grams of Whipped Soap Base, 9 grams Vegetable glycerin, and 7 grams of Alien Type Fragrance Oil. Set aside for now.

Step 5: Melt 77 grams of Soya Milk Melt and Pour Soap. Once melted, add this base to the mixing bowl with the Whipped Soap Base. Using a hand mixer, mix until you get a fluffy frosting consistency.

Step 6: You will need to work fast to scoop the mixture onto the cupcake base. Create a peak at the top to resemble a ghost's head. Finally, remove the eyes and mouths from the wax paper and place them on the ghosts.

Your Ghost Soaps are now ready to use! Enjoy!
