## Here's How It's Done : Directions

### Total Recipe Weights:

2 cups Baking Soda (458 grams)

1 cup Citric Acid (236 grams)

1/2 oz. Gingersnap Cookies Fragrance Oil (14 grams)

40 drops Brown FUN Soap Coloring

This recipe is best prepared in non-humid climates. Prior to making this recipe, pour some of your witch hazel into your spray bottle in order to have this ready.

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Mix together 2 cups baking soda and 1 cup citric acid.

Add 1/2 oz. Gingersnap Cookies Fragrance Oil, and 40 drops of Brown Fun Soap Coloring.

Keep hands stirring while adding ingredients to keep from clumping. Now begin to spray mixture with witch hazel in small amounts, like 1 or 2 sprays and mix quickly. Keep doing this until it reaches a point that you can squeeze it in your hand and it holds a form; but not so wet that it fizzes.

Now press into your molds and let dry 24 hours before using.
