Please Note: For this recipe, you will want to add the sodium lactate to the cooled lye water solution and stir to incorporate.

Before adding the fragrance oil to the soap batter, weigh out 454 grams into a separate bowl, and then add 6 grams of Titanium Dioxide. Stir to completely incorporate. Set aside. Proceed by then adding the fragrance oil to the soap batter. Stir to incorporate. Once fully mixed, in another separate container, weigh out 454 grams of scented soap batter. Set this aside. Finally, to the remaining soap batter, add 12 grams of cocoa powder and stick blend to incorporate. Once fully mixed, fill your soap molds with swirling techniques using the various colored batter.
