[NG Cashmere & Silk Type Fragrance Oil](#)  
[Deep Round Tin with Lid 6 oz.](#)  
[CD Candle Wicks \(100 wicks\)](#)

### Other Ingredients & Equipment You'll Need:

Mixing Bowl  
Stirring Spoon  
Stove  
Scale  
Knife  
Glue Gun with Glue  
Spatula

## Here's How It's Done : Directions

### Total Recipe Amounts:

120 grams of Soy Wax 415  
108 grams of Cocoa Butter Deodorized  
116 grams of Coconut Oil-76  
112 grams of Shea Butter  
56 grams of Mango Butter  
26 grams of NG Cashmere & Silk Type Fragrance Oil

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Step 1: Using the double boiler method weigh out and melt the following ingredients: Soy Wax, Cocoa Butter, Coconut Oil 76, Shea Butter, and Mango Butter. Place this on a low heat setting and stir occasionally.

Step 2: In your mixing bowl, weigh out 26 grams of NG Cashmere & Silk Type Fragrance Oil. Set aside.

Step 3: Once all of the ingredients have melted on your stovetop, remove from heat and gently stir.

Step 4: Next, pour the mixture into your mixing bowl that contains the fragrance oil. Use a spatula to ease all of the mixture out. Once again, give a gentle stir to incorporate the fragrance oil throughout the ingredients.

Step 5: Lay all 4 of your tin cans on a flat surface where they will not be in the way. Once the mixture is poured into these tins, they can not be moved until they are set up. Please Note: It does take some time for this recipe to set up, so please place them somewhere they can set up undisturbed.

Step 6: Pour the mixture into your tins.

Step 7: Let the mixture set up slightly, then straighten your wick and gently ease it into the tin. Repeat for remaining 3 massage candles.

Step 8: Allow the candles to completely set up. Then trim your wicks and lid the tins.

Once your candles are completely set up, they are now ready to burn and use. Simply trim your candle, light, and enjoy your massage!
