[NG CanCan Type Fragrance Oil](#)
[Spectrum Liquid Candle Dye- RED 1oz.](#)
[Spectrum Liquid Candle Dye- BURGUNDY 1oz.](#)
[Spectrum Liquid Candle Dye- BLACK 1oz.](#)
[CD Candle Wicks \(100 wicks\)](#)
[Disposable Pipettes](#)

Other Ingredients & Equipment You'll Need:

1- 16 oz. Glass Apothecary Jar
(5) Ziplock bags for mixing colored wax
Hot Glue Gun
Disposable Spoons
Pencil
Scale

Here's How It's Done : Directions

Step 1: Using a hot glue gun, attach (2) CD-12 wicks to the bottom of your apothecary jar. You want the wicks to be equally spaced apart.

Step 2: Get your (5) Ziplock bags ready. In each bag, place 90 grams of Pillar of Bliss.

Step 3: Next, to each of the Ziplock bags, add 7 grams of NG CanCan Fragrance Oil using a pipette.

Step 4: It is time to add the Spectrum Color Dye to your candle wax bags:

Bag 1- 2 drops Burgundy and 1 drop Red

Bag 2- 1 drop Burgundy

Bag 3- 1 drop Red

Bag 4- 1 drop Burgundy, 1 drop Black, and 2 drops Red

Bag 5- Leave this bag uncolored for now.

Step 5: Now, it is time to mix away. Simply seal the zipper of the bag closed, and shake away until everything is evenly dispersed. Once the bag that has 1 drop Burgundy, 1 drop Black, and 2 drops Red is mixed, remove 3 grams of it, and place it in the uncolored bag. Mix this bag now as well.

Step 6: Using a disposable spoon, take out some of the wax from one of the bags. Then, place the wax in one of the jar's bottom edges. With the spoon, press the wax down to compact and shape it. Repeat this manner, rotating all 5 colors, until the bottom portion of your jar is filled. Remember to keep your wicks straight and spaced correctly.

Step 7: As you make the multicolored layers in the candle jar, use your disposable spoon to emulate the pattern of camouflage. The size and shape of the different wax colors is completely up to you. But remember to keep packing the wax in. Please Note: As you continue to add wax to your candle jar, keep checking that your wicks are straight and spaced correctly.

Step 8: Once your candle jar is filled, straighten your wicks one last time. Using a pencil, take the excess wick and wrap it around the pencil to make a curl. Repeat for both wicks.

Step 9: Your Camouflage Candle is now ready. So, trim your wick and burn your candle!
