

## Popcorn Slime Recipe

*Recipe makes approximately 2- 8 oz. jars of slime.*

Here's What You Need:  
Ingredients

[Borax](#)  
[Yellow Da Bomb Soap Dye](#)  
[8 oz Bullet Bottle](#)  
[24/410 White Smooth Disc Lids](#)  
[8 oz Clear PET Jars](#)  
[White Smooth Lids 70/400](#)  
[Disposable Pipettes](#)  
[Buttered Popcorn Fragrance Oil](#)

### **Other Ingredients & Equipment You'll Need:**

Mixing Bowls  
Stainless Steel Spoon  
Measuring Cups  
Measuring Spoons  
White Elmer's Glue  
Shaving Cream  
Yellow Slime Confetti

## Here's How It's Done : Directions

**Step 1:** Prepare your borax solution. In your 8 oz bottle, add ½ teaspoon of Natures Garden's borax. To this bottle, add 8 ounces of warm water. Place a white lid on the bottle. Make sure the lid is in the closed position. Shake the bottle to mix the two ingredients together. You will need this solution in a later step.

**Step 2:** Next, in a deep mixing bowl, add 1 cup of the white Elmer's glue. Additionally, add 2 cups of shaving cream. Also, use a disposable pipette to add 4ml of the Buttered Popcorn Fragrance Oil. Use your hands to blend everything together completely.

**Step 3:** Now, add a couple drops of the yellow Da Bomb Soap Dye to achieve very light yellow color. Once again, use your hands to mix.

**Step 4:** For this step, you will need the borax solution you prepared. Add a small amount of the borax solution and mix. Then, add more of the solution and mix again. Repeat this process until you have a fluffy slime consistency.

**Note:** If you do not add enough borax solution, your slime will be too sticky. If you add too much of the borax solution, your slime will be too stiff and not as stretchy. So, make sure you add only small amounts of the solution at a time.

**Step 5:** Place your slime in your clear 8 oz. jars. Add yellow confetti to the top off your slime. Finally, place a lid on top for storage.

We hope that you enjoy your popcorn slime!
