

## Rainbow Sherbet Slime Recipe

*Recipe makes approximately 2- 8 oz. jars of slime.*

Here's What You Need:  
Ingredients

[Borax](#)  
[FUN Soap Colorant Neon Pink](#)  
[FUN Soap Colorant Neon Yellow](#)  
[FUN Soap Colorant Neon Orange](#)  
[8 oz Bullet Bottle](#)  
[24/410 White Smooth Disc Lids](#)  
[8 oz Clear PET Jars](#)  
[White Smooth Lids 70/400](#)  
[Disposable Pipettes](#)  
[Rainbow Sherbet Fragrance Oil](#)

### **Other Ingredients & Equipment You'll Need:**

Mixing Bowls (4)  
Stainless Steel Spoon  
Measuring Cups  
Measuring Spoons  
White Glue  
Shaving Cream (We used original BarbarSol)  
Pink Glitter  
Yellow Glitter  
Orange Glitter

## Here's How It's Done : Directions

**Step 1:** First, prepare your borax solution. In your bullet bottle, add 8 ounces of warm water. Then, add 1/2 teaspoon of Nature's Garden's borax. Place a white disc lid on the bottle. Make sure the lid is in the closed position and shake to mix the borax and water together. Set this bottle aside, you will need it in a later step.

**Step 2:** In a medium sized deep mixing bowl, add 1 cup of the glue. In addition, add about 2 cups of shaving cream and 4ml of the Rainbow Sherbet Fragrance Oil. Mix everything together thoroughly using your hands.

**Step 3:** Now, divide the mixture evenly into three bowls.

**Step 4:** To the first bowl, add 20 drops of the Neon Pink FUN Soap Colorant. To the second bowl, add 10 drops of the Neon Orange FUN Soap Colorant. To the third bowl, add 10 drops Neon Yellow FUN Soap Colorant. Once you have added the colorants, use your hands to mix the colorant into the slime. Be sure to wash your hands after mixing each color so you do not accidentally mix the colors.

**Step 5:** Now, you will need the borax solution you prepared. Add a small amount of the borax solution and mix. Then, add more of the solution and mix again. Repeat this process until you have a taffy like consistency.

**Note:** If you do not add enough borax solution, your slime will be too sticky. If you add too much of the borax solution, your slime will be too stiff and not as stretchy. So, make sure you add only small amounts of the solution at a time.

**Step 6:** At this time, we will add the glitter. So, to the yellow slime, add yellow glitter and mix it into the slime until you are satisfied with the amount. To the pink slime, do the same using the pink glitter. Then, to the orange slime add the orange glitter in the same manner.

**Step 7:** Stretch the pink slime out in front of you. Then do the same with the yellow slime, placing it right next to the pink. Finally, stretch the orange slime out and put it next to the other two colors. Twist the three colors together. Then, place them in the jar.
