

Rose Violet Bath Melts

Recipe makes approximately 12 bath melts.

Here's What You Need:
Ingredients

[SHEA BUTTER](#)
[MANGO BUTTER](#)
[COCOA BUTTER DEODORIZED](#)
[BEESWAX White Pastilles](#)
[Beet Root Powder](#)
[NG Rose & Violet Type Fragrance Oil](#)
[Disposable Pipettes](#)
[Fillable Bath Tea Bags with Pull Strings](#)
[Rose Petals Pink](#)
[Silicone Soap Mold- 24 Mini HEARTS](#)

Other Ingredients & Equipment You'll Need:

Scale
Mixing Bowl
Mixing Spoon
Stovetop
Pots (for double boiler method)

Here's How It's Done : Directions

Total Recipe Weights:

57 grams Shea Butter
57 grams Mango Butter
113 grams Cocoa Butter Deodorized
6 grams White Beeswax
3 grams Beet Root Powder
2 grams NG Rose & Violet Type Fragrance Oil
Pink Rose Petals

Optional: If you do not want to have herbs floating around in your tub, you can place the bath melts into a fillable bath tea bag with pull string.

Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

1. Weigh out all of your butters and beeswax.
2. Begin melting the butters and beeswax using the double boiler method. Heat until completely melted. Be careful not to get your oils too hot, or you can ruin them.
3. Add your beet root powder and stick blend thoroughly. You want the herb to be completely incorporated throughout the entire melted mixture. This allows for your finished bath melts to have a nice consistent color.
4. Add your fragrance oil and stir.
5. Once blended, pour mixture into your molds.
6. When the mold has set up to the point where there is an apparent film on the top, carefully sprinkle each mold with herbs.
7. Once the mold is safe to move, place it in the freezer for 30 mins.
8. Pop out the bath melts.
9. Place one bath melt into the bath tub under warm running water. Only one bath melt is needed. Be Careful: Your bath tub will be slippery from the butters once the bath melt has melted. Also, pigments and powdered herbs may leave a colored ring in your bathtub. This easily cleans up with soap and water; it is not a permanent stain.

Please note: These bath melts will begin to melt just from physical contact with the skin. It is not advised to ship these during the hotter temperature months.
