

Solid Lotion Bar Recipe

Recipe makes approximately 16 oz of lotion.

Here's What You Need:
Ingredients

[All Natural Lip Balm Base](#)
[Bourbon Drenched Butterscotch Fragrance Oil](#)
[Small Deodorant Stick Containers](#)
[White Lip Balm Tubes](#)
[6 oz Deep Round Tins](#)
[Round Bars Mold](#)
[Disposable Pipettes](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowl
Mixing Spoon
Microwave
Scale

Here's How It's Done : Directions

Total Recipe Weights:

16 ounces All Natural Lip Balm Base

10 grams Bourbon Drenched Butterscotch Fragrance Oil

Clean and sanitize your work area as well as your packaging.

Step 1: Weigh out and melt 16 ounces of the lip balm base in a deep mixing bowl. Melt the base in 30 second intervals, stirring between each 30-second burst.

Step 2: Once your lip balm base is in a fluid state, add 10 grams of the Bourbon Drenched Butterscotch Fragrance Oil. Stir to blend the ingredients together.

Step 3: Begin pouring your lotions bars. First, make sure all of the lip balm tubes and deodorant stick containers have their dials turned all the way to the down position. Fill each of your lip balm tubes using a pipette. Then, fill each deodorant stick container. Allow these to set up undisturbed.

Step 4: The remainder of the base will be poured into your mold. Fill each cavity of the round bars mold. Allow these to set up completely before removing them from the mold. We put ours in the freezer for about 15 minutes to ensure they were nice and solid. Since the lotion bar melts with your body heat, it is ideal to have them a bit colder when removing them.

Step 5: Once you have removed your solid lotion bars from the mold, place them into the 6 oz tins. Add a lid.

We hope that you enjoy our solid lotion bar recipe!
