

Spider Slime Recipe

Recipe makes approximately 2- 8 oz. jars of slime.

Here's What You Need:
Ingredients

[Borax](#)
[Deep Purple FUN Soap Colorant](#)
[8 oz Bullet Bottle](#)
[24/410 White Smooth Disc Lids](#)
[8 oz Clear PET Jars](#)
[Black Smooth Lids 70/400](#)
[Disposable Pipettes](#)
[Witching Hour Fragrance Oil](#)

Other Ingredients & Equipment You'll Need:

Mixing Bowl
Stainless Steel Spoon
Measuring Cups
Measuring Spoons
Clear Glue
Shaving Cream
Spider Slime Charms

Here's How It's Done : Directions

Step 1: Prepare your borax solution. In your 8 oz bottle, add ½ teaspoon of Natures Garden's borax. To this bottle, also add 8 ounces of warm water. Place a lid on the bottle. With the lid in the closed position, shake the bottle to mix the two ingredients together. You will need this solution in a later step.

Step 2: Next, in a deep mixing bowl, add 1 cup of the white Elmer's glue. Additionally, add 2 cups of shaving cream. Also, use a disposable pipette to add 4 ml of the Witching Hour Fragrance Oil. Use your hands to thoroughly mix it all together.

Step 3: Now, add about 20 drops Deep Purple FUN Soap Colorant. Again, use your hands to mix.

Step 4: At this time, you will need the borax solution you prepared. Add a small amount of the borax solution and mix. Then, add more of the solution and mix again. Repeat this process until you have a fluffy slime consistency.

Note: If your slime is too sticky, you need to add more of the borax solution. If you add too much of the borax solution, your slime will be too stiff and not as stretchy. Add only small amounts of the solution at a time.

Step 5: Add little black spiders to your slime. Finally, when you are ready to store your slime, place it in a jar and put a lid on top.

We hope that you enjoy your spider slime!
