Clean & Sanitize your work area and all of your packaging materials. It is suggested that you wear gloves, protective clothing, and a hair net while preparing this recipe.

Step 1: Weigh out and melt the proper amounts of beeswax, cocoa butter, coconut oil 76, and mango butter using the double boiler method.

Step 2: Once the beeswax, butters, and oil are in a liquid state, add the chocolate wafers. Stir.

Step 3: Next, weigh out the proper amount of vitamin E.

Step 4: When the wafers have melted, remove from heat and add the vitamin E oil.

Step 5: Now, to the mixture add 20 drops Lavender 40/42 Essential Oil. Stir

Step 6: Place your mixture into lip balm tubes using the transfer pipettes. Plastic pipettes work better than glass pipettes because they do not cool down your mixture as quickly as glass pipettes do.

Step 7: Allow to cool at room temperature.
